

# Help Mālama Put Trash In Its Place

**1** While playing in the coral reef, Mālama noticed that there was a lot of trash around. Auwe! So, being an akamai fish, Mālama put all the trash in a box and looked for the trash can. But when Mālama found the trash can, it was on the land!

**2** Can you help Mālama by putting the trash into the trash can? Draw a line through the maze from the trash to the trash can. But be careful. If you put the trash down the storm drain in the center of the maze, it will take the trash back into the ocean and Mālama will have to pick up the trash again.

Can you identify all of the trash that Mālama found in the ocean?
