

Storm Water Management Program Radio Public Service Announcement

As recorded with Jordan Segundo

Let me share a little story about Hawaii,
My tutu used to sing this one to me.

You see, the rain flows down the sidewalks to the storm drains
and what goes in the storm drains flows down to the sea

Rusty junk, motor oil, pesticides
Soapy stuff, dog waste
Cans and bottles

Don't let um go down the drain with the rain
So all the keiki of Hawaii, please kokua

Or we'll have no more humu or opihi
No opihi!

Cause we know that what we put into the storm drains
Flows right down to the sea

Voice Over:

Hi, this is Jordan Segundo! Help keep our storm drains and our oceans
clean for future generations. For more information, visit
