

HOUSEHOLD HAZARDOUS WASTE COLLECTION EVENTS 2023

Some of the products you use at home are potentially hazardous. Safe handling and proper disposal of these materials will protect you, your family and our environment.

The following materials require special handling and should be disposed of at a household hazardous waste collection event:

Acetone	Hydrochloric Acid	Paraquat
Arsenic	Insecticides	Pentachlorophenol
Boric Acid	Kerosene	Paris Green
Chlordane	Lead	Photographic Chemicals
DDT	Lighter Fluid	Rust Remover
Dieldrin	Malathion	Solvents
Fertilizers (liquid)	Mercury	Swimming Pool Chemicals
Formaldehyde	Muriatic Acid	Turpentine
Gasoline	Paint Stripper	Varathane
Herbicides	Paint Thinner	Wood Preservatives

COLLECTION DATES

Drop-off of household hazardous waste is by appointment, and is only for residents. *Check the website below for scheduled dates and drop-off locations, as they may change.* Call **(808) 768-3201** or email **householdhazardouswa@honolulu.gov** to schedule an appointment. Prepare an inventory list of your items, which include the type of material you wish to dispose and the container size (i.e. acetone - 2.0 quarts). Request for appointment must be made no later than one week prior to each event.
